

Sursum Corda Latin I (A or B)

Latin At Home* Planning Worksheet

*for Middle School Enrichment or High School Credit!

Our approach is designed to give you flexibility as you plan your student’s Latin. Families have different priorities and desires, and students have different learning styles. The number of hours devoted to a high school course varies by family, as does the amount of time a particular student takes to finish tasks. This chart shows different elements you might consider including in your child’s Latin journey, and allows you to plan how you will do it.
